**D**edicating this magazine to all terrestrial humans, to all Rebellious Eagles, Man and Woman receptive, with open minds free of fanaticism, dogmatism and the depressing skepticism materialist, regressive and delay that eclipse the truth hidden in our hearts, before the solemn verdict of the public conscience.

In the present doing we explain the unknown, the concerns to questions without answer, that we make ourselves in our interior about this topic of the extra-terrestrial, the cosmic ships manned by human beings and the reality that all the planets of the cosmos are inhabited by human beings like us.

Thanks to the breadwinner of life, I've had the privilege of have being contact physically by man of the exterior space, of have being visited in several occasion and in different places by ships manned by human beings like us, from the neighbor planets of Jupiter, Mars, Venus, among others and from their facilities here on Earth. Of have being invited on their ships and being transferred to some specific places of our planet.

Throughout the infinite cosmic space, millions of cosmic ships travel, so numerous like the sand of the ocean. The interplanetary ships (interstellar) are gigantic and take inside their belly small ship, used to descend to the worlds. This is suchlike the big shipping that take aboard small boats that are used to descend to ground.

Any mature humanity of the cosmos has the full right to receive the cosmic ships.

Normally the elder brothers help the young ones and when humanity reaches the mature age, they receive the visit of other planetary

humanities, whom initiate them in the cosmic travels and beside of giving them some of those ships they are taught to build them.

In the time of the Atlantis normally the cosmic ships would land in the airports of Samlio city, then, the people from other planets would visit the kings and lived with them in their palaces.

When humanity corrupted morally, the sisters from other planets stopped visiting us. By this time of bankruptcy of all spiritual values, we will again be help by our brothers from other planets; we need extra help because we are failed and by the edge of a cataclysm.

Various people of earth have already been taken for trip to other planets of the infinite space.

In the streets of our cities, there are citizens from other planets already, dressed as countrymen that nobody recognize, they study our language, usage and mores with the purpose to help us.

We will be aid in great scale, lots of cosmic ships will land in the jungle of Brazil, in the south of Argentina, in the Himalayas and in other places where they have secret facilities, like in Mexico.

Some of those cosmic crews often stay among us.

# The Reality of the Cosmic Ships

**T**his restlessness topic of the flying discs spreads throughout the roundness of earth, now that nobody can't deny that. Today who dares deny that, it is heard unquestionably by their foolishness.

Like that, who denies the reality of the cosmic ships, will be classified as stubborn, now that they are shown till satiety their real existence, with photographs, such as North like in the South, in the East like in the West of the world.

Obviously earth cannot be the only planet inhabit, it would be absurd to think that our world, a negative grain of sand in the infinite space, would be the only planet with the exclusiveness of having life.

In reality of truth, "The Plurality of the Worlds", sustained a while ago by the astrono-

mer Frances Camille Flammarion, is a tremendous reality, however scientist like always keep doubting.

In this Pleyades Magazine we don't pretend to proof the reality of cosmic ships that visit us.

Because it's a concrete fact and real for all terrestrial people and for their governments, that the manned cosmic ships by beings of flesh and bones like us have visit us since antiquity, they visit us and will be doing so.

The ships have been filmed, photographed, capture by networks, by telescopes and control towers of airports, before the solemn verdict of the public conscience.

# The Human Bodies of other Worlds

It is absurd, the fantasies of many authors, scientists, uphologist, and cinematographers; that cast and imaging the people of other planets; with a different shape other than the shape of the terrestrial human.

The physical factions of all men, kids and women of all the worlds are similar to ours, with some variants.

The physical bodies of humans are differ by size and height; of all ethnic cultures of the earth there are of the same height, like of 1.80m approximately the people of Mars, Venusians with an average height of 90cm women and 1m men.

The ones from Mercury, taller than us, the people from planet Jupiter are the same average height as terrestrial.

There are also of 2.5m and of 4m like the giants of Tula, Mexico. There are of 8m and 18m, we also found testimony of this in the terrestrial races of gigantic height that existed in

other times and that we have sculptures of rock in Egypt, in Petra, in India, in Tibet, in China and in other cultures of the world, that clearly show and if on earth there has been races of all sizes why couldn't there exist in other worlds the different height of human bodies.

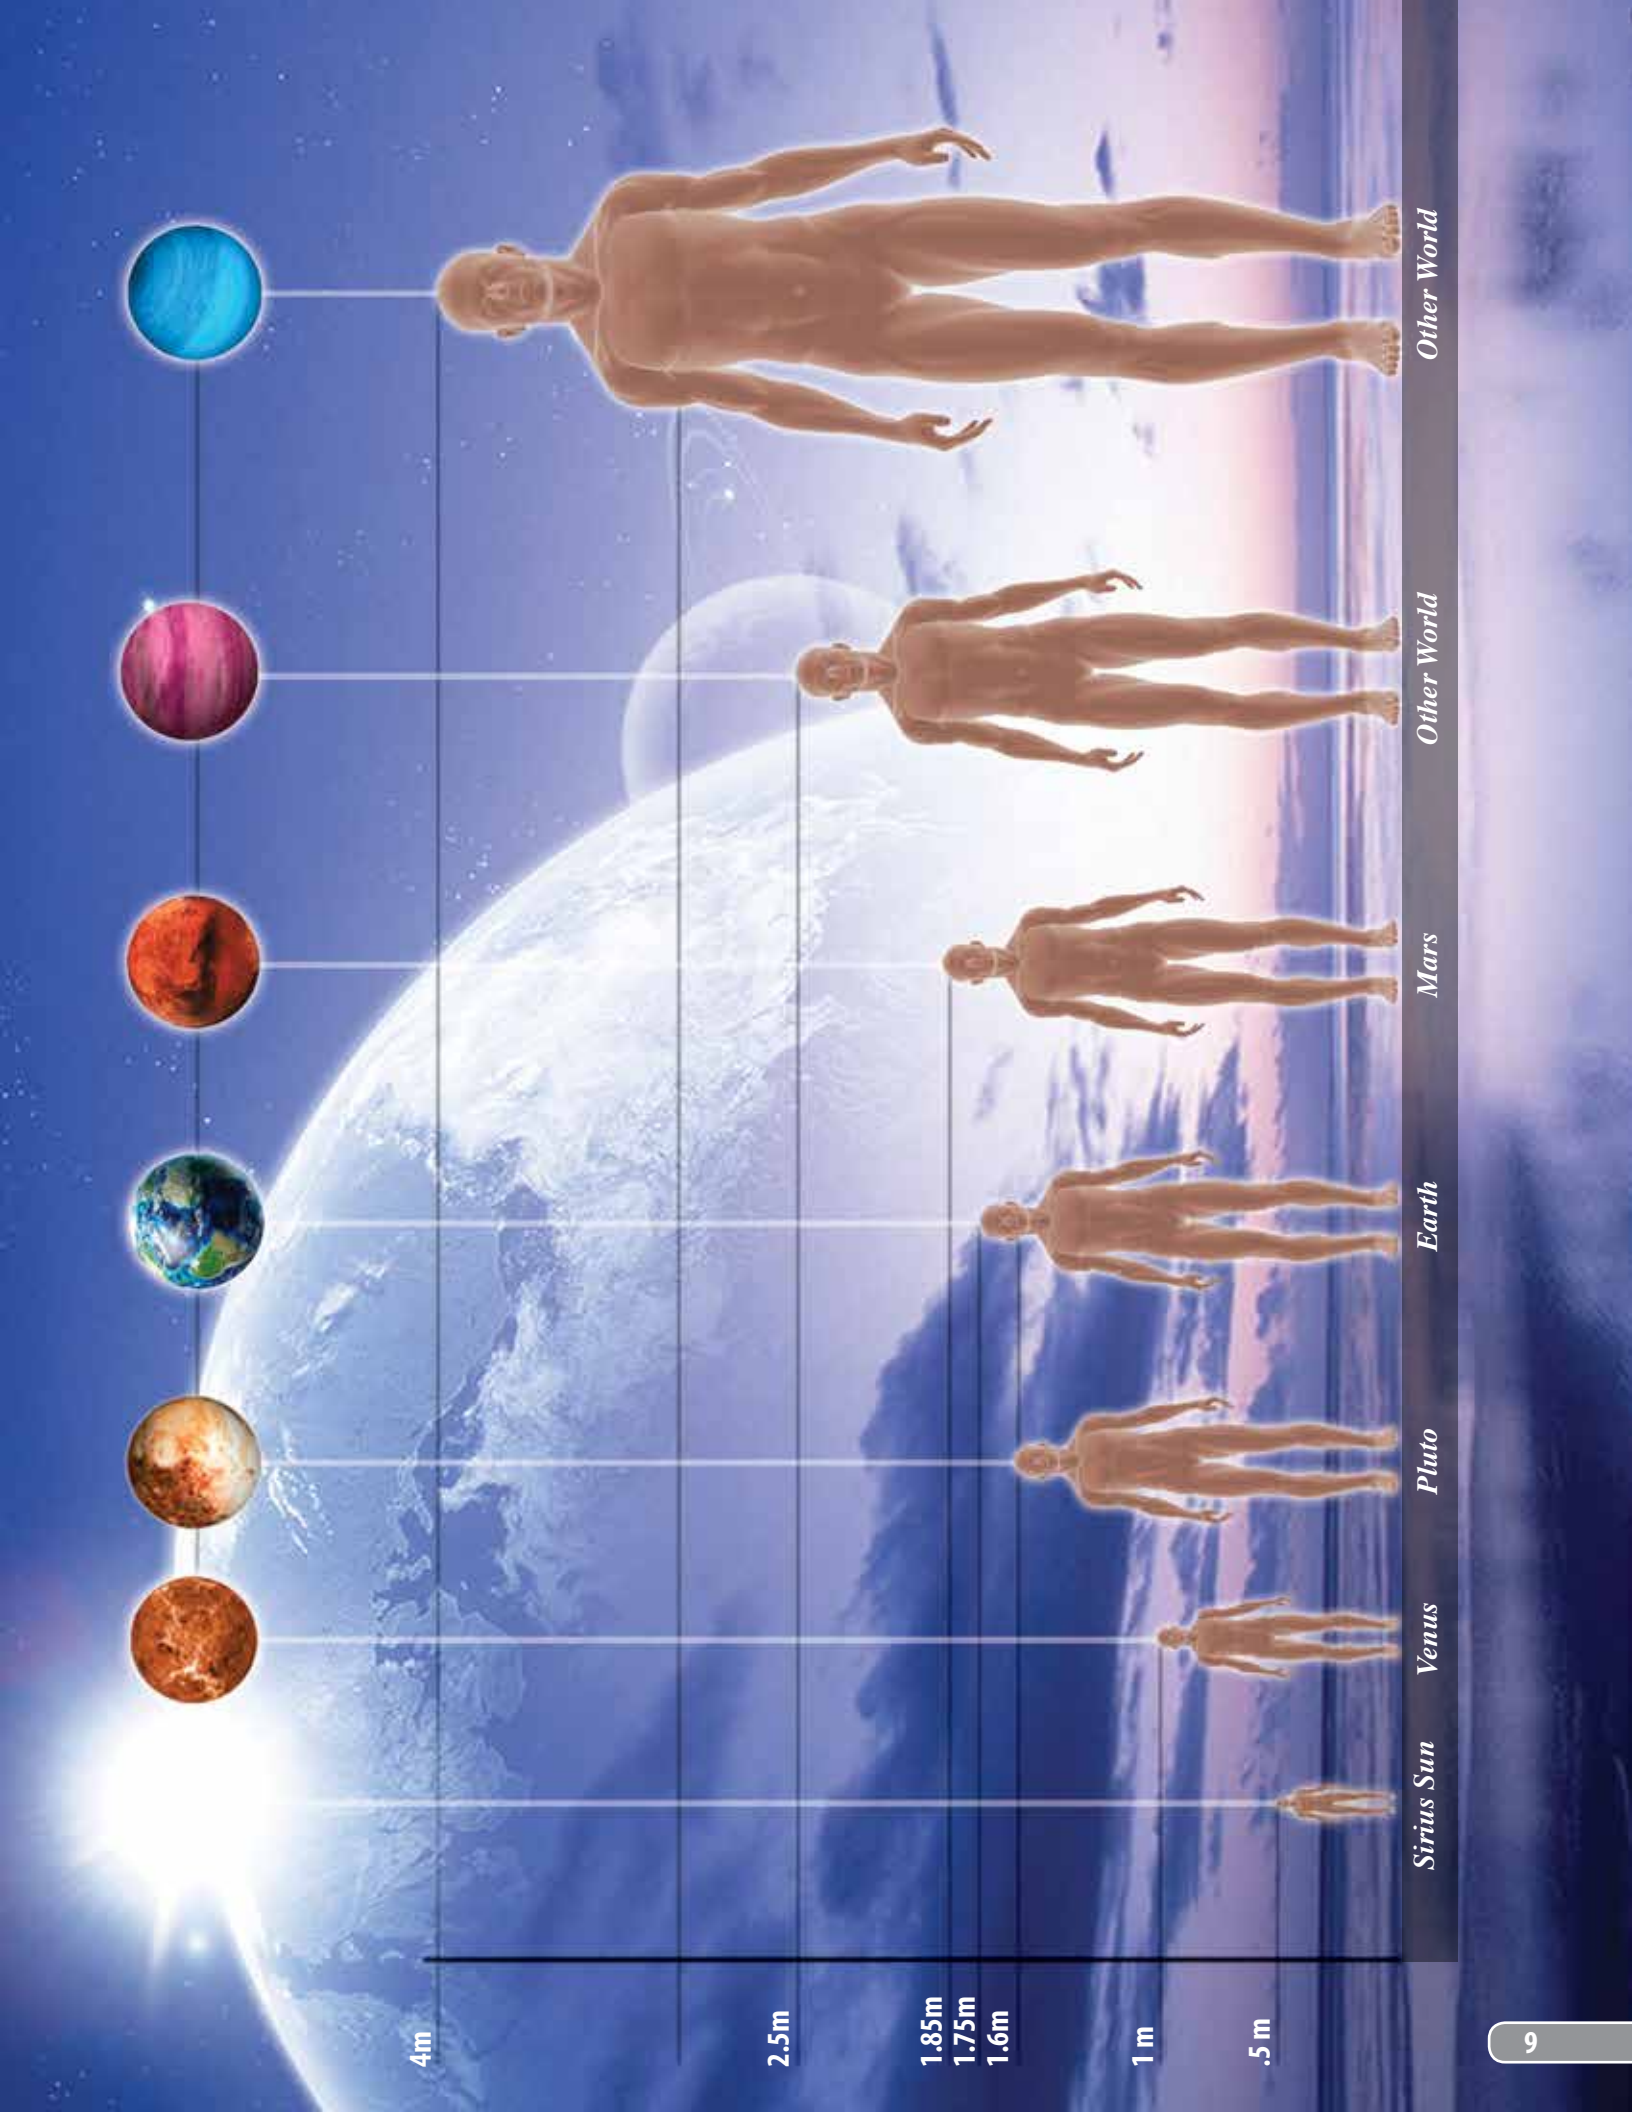

There's also human beings with the height of 50cm like the people from the Sun Syrian, there are of 25cm and less, we found testimony of this a few hours of Sucre, capital of Bolivia, were they found archeological ruins of a Lilliputian civilization of Earth, therefore, anthropologically its proven and by gigantic human sculptures of rock that in our planet have existed races of different sizes.

Therefore, worlds that beat in the starry space of our galaxy and of millions of galaxies are densely populated by humanities of several heights.

*Fernando Moya*

# The Color of the Skin of Humans from Other Worlds

**U**ndoubtedly that in our planet there has always been four colors of basic skin.

The first race of pure black color skin, tan like the Watusi tribes of Africa, with fine and beautiful factions like the Olmec heads on rocks of the Olmec in Mexico with the flattened nose and pronounced lips, that breed with the black skin race gave as a result of other variants.

The second breed, yellow skin, from Asian countries.

The third race, white, that systematically annihilate the fourth race of red skin that remind us of North American tribes.

The combination of these four primary colors of skin in the crucible foundry of the races in New York and now in Middle and South America has giving combinations of different skin colors that we all know.

The same way in the neighboring planets of the solar system, the skin in general is the same color as human terrestrial.

For example, the people from Venus, kids, women and men, have white pinkish akin like the dawn, beautiful, reflecting an extraordinary harmony in their beautiful human body.

Such as in women like in men, white blue greenish eyes, bright where they reflect their souls of angels and the wisdom of the stars.

The people from planet Mars are white skin, like the one from north of Europe, pinkish that reflects the determination in their face.

Humans from Jupiter also have white skin and other shade tones similar to ours.

The humanity from the planet Pluto is small of 1.5cm of average height and skin color of natives or ethnicities of Mexico, Aztecs, same color skin as the Incas of Peru and with exactly the same physiologic characteristics as the ripping in their eyes.

There are also people like the ones from the Blue Galaxy that the Master Samael ratify been entered in contact with them and that they have intense blue skin color like the hindus deities that live in the underground caverns of the Antarctic.

In my personal case, I give testimony before the solemn verdict of the public conscience to have been contacted in one occasion in a specific place by a man of the Blue Galaxy, his body was Herculean, with a beautiful face and an average height of 1.90m. His suit the same color of his skin and tight to the body, like the divers of blue hair and eyes of the dame heavenly color.

There are also races of color green, violet, purple and other colors, comprehend that there are billions of planets, all inhabited with skin colors each totally different or related in some cases.

*Fernando Moya*

# The Hair Color of the Interplanetary Humanities

**I**n the planet Mars or Dogue (Mars language), there are two ethnicities or races, one with black hair, green eyes of different shades and white skin with an athletic body.

The other Martian race have their hair color blond like the anglos and blue color eyes, the women are beautiful, where the purity and beauty of their soul reflects in their eyes.

In synthesis we will say that there are a variety of hair tones, like how there are on the different planets there are on Earth. Venusians have hair color blond like gold and people from Pluto have black hair color.

The eyes of the interplanetary humanities possess beautiful colors unknown by us earthlings. Generally the neighbor humanities of the solar system, have related color eyes as the people of Earth, in which reflects the pureness of their angel souls.

We must understand that the bird and mammal species have different color eyes to ours in general, that is why we must not be surprised that humans from other solar systems and galaxies have different color eyes to ours.

## **Morphology and Psychology Of Neighboring Humans of the Solar System**

The morphology of the extra-terrestrial with their feature characteristics is similar to ours, but psychologically they are totally different, well none of the human beings of neighboring planets carry in their interior the animal ego.

That means that with the defects of the character and the personality, with which we use to make our loved ones suffer, ourselves and the suffering humanity.

I'm referring emphatically to the violent rage, the brutal hate, the terrible pride, our self-love, the lust, he lie, the fraud, the deception, the scam, the gluttony, the infrasexual, the sodomy, the homicide, the genocide, the ecocide, etc., etc., etc. which characterize all of us with no exception, which we live in this stricken society, victims of our own faults.

The neighboring humanities and the infinite cosmos are solar men and women in full meaning of the word, without an atom of the animal ego, of defects and subhuman aberrations.

Like that humanities have been granted the conquest of the interstellar cosmic space, the manufacture of powerful transport units of all types and size, they are moved as grains of light to the speed of light.

For these reason, the present human race to which we belong will not be giving the right to special navigation.

The inhabitants of other worlds visit us with the noblest intentions and bring us messages of wisdom, science and love; unfortunately in repeated occasions they have been greeted with shrapnel and missiles from warplanes.

Solar System Ors  
(Our Solar System)

# The Milky Way

**T**he Milky Way is a living cosmic organism, spiral body within which our solar system exist.

The Milky Way is really huge that even traveling at 270 miles per second; it would take the sun 220 millions of years to make a complete circle around it.

Entire nebula even our Milky Way, has in fact their own right the same fundamental cosmic design. Throughout the galaxy three forces are processed, the first is the centripetal, the second is centrifuged and the third is neutral which serves as a fulcrum and balance the entire galaxy.

The centrifuge force imparts the nebula in a spiral motion, likeness a tornado on sand, spiroid imparting movement to the column of dust that rises. The Milky Way with all its eighteen million suns and innumerable planets and moons, has whose center of gravitation the Central Sun Syrian.

Astronomers know that beyond the Milky Way, there are only three galaxies visible to the naked eye without the aid of telescopes, two of which are visible from the southern hemisphere, are the great cloud and the small Magellanic cloud. With a beautiful pink color, in these two galaxies are other cosmic laws unknown to the inhabitants of the Milky Way.

**Sirius Sun**

The gravitational center of our galaxy is twice, and it is formed by the Syrian sun and its companion a giant moon 5,000 times heavier than lead. Astronomers give the Syrian sun and his twin brother nicknamed the Dog Star and its companion Puppy.

Our galaxy is formidable, measures a hundred thousand light years in diameter, by ten thousand light years thick. The sun that warms us and gives us life, our beloved source of lifetime sun is located about three thousand light years of the center of the galaxy.

In infinite space there exist many thousand and millions of galaxies, it is estimated that in a space of two hundred and fifty million light

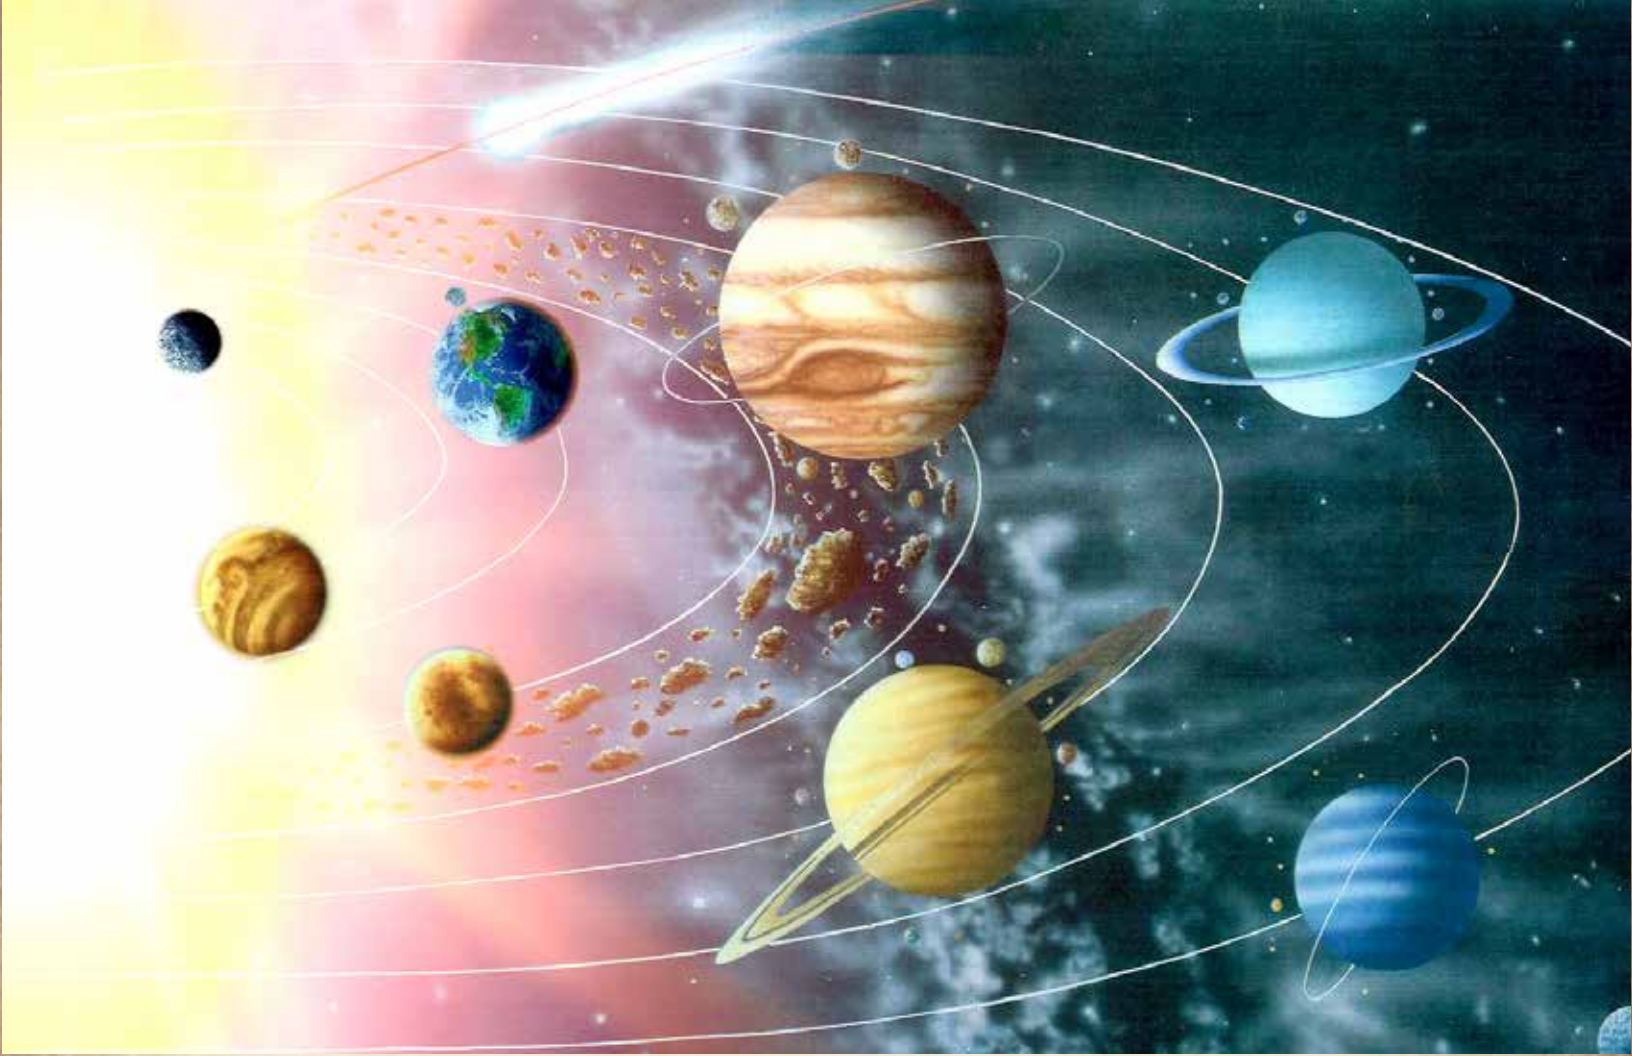

years, there are about two million galaxies and even these distances such tremendous show no sign of ending.

The situation of our solar system, it is beyond doubt without any exaggeration the same as a blood cell in the human body in relation to the Galaxy.

If the origin of this small galaxy micro cosmic called man originated through sexual creative energy, we can deduce logically without fear, that the origin of our galaxy and all the infinite galaxies must be sought in the universal creative energy of life.

*V.M. Samael*

# Ors Solar System

**I**n the heart of our Sun intensively beats lifetime of the Solar System Ors. The gravitational force of the sun remains within its mechanical orbits the twelve worlds that make up the solar family. Ors Solar System seen from afar looks like a man walking through the unalterable infinite.

On its outer side trip leaves a glowing fire and resplendent light, is five times longer than wide and beautifully figure provided as the human body.

The attraction exerted by the sun governs all movement of the worlds that revolve around the (solar family) and the closer the planets are it is clear that vigorous speed is needed to counter the tremendous force of the solar attraction

The axis of the Solar System Ors, that is of the same sun, makes its rotation around a pond cosmic magnetic center; this rotation is performed in one month, because the solar system is a living cosmic creature born of creative energy millions of years ago.

Twelve worlds revolve around the sun, when science improves the lens of the telescope will detect the last two planets that the ancients called Persephone and Clarion.

What distinguishes men one another is the degree of irradiation, what distinguishes suns in their degree of irradiation, light and consciousness are basically the same phenomenon and obey the same laws growing and shrinking in exactly the same way.

All men are alike in design and constitutions, likewise happens in all the suns of infinite space. The self-development of the cosmos man as the solar system; the illumination and irradiation of one and other, is equal to the level of awareness of any solar auto generated cosmos or any man cosmos.

For a man to be fully aware of himself, all his parts must be fully aware. For a sun to become fully radiant, all his planets and cosmic organs must be fully radiant; humanity lost in the darkness of the planet Earth has not cooperated with the sun, is totally unsuccessful.

The task of all universes and all being from the gigantic sun to the insignificant cell is to raise awareness.

Ors Solar System will become more resplendent, according to each of their worlds, as each person become aware, all beings that inhabit the cortex Earth, with the exception of a few have their conscious asleep; therefore in these conditions it is impossible to experience that which is truth.

Ors Solar System, in which we live we move and we have our being, turns out to be a large molecule in relation to the galaxy that develops and unfolds within the living organism and spiral which is the Milky Way.

# The Origin of the Cosmic Ships

## The Law of the Fall

**E**he cosmic navigation system from archaic times was investigated by San Venona who was born on the planet Soort, where he researched, “The Law of the Fall”, formulating it so;

*“All things that exist in the world fall to the bottom and bottom to anywhere in the universe is its next stability and bliss stability, is the place or point by which all the lines of force converge, from all directions.”*

*“The center of all suns and all the planets of our Universe, are precisely those points of stability.”*

They are the lower points of those regions of space, which they tend to, definitely the forces come from all directions from those parts given of the Universe”.

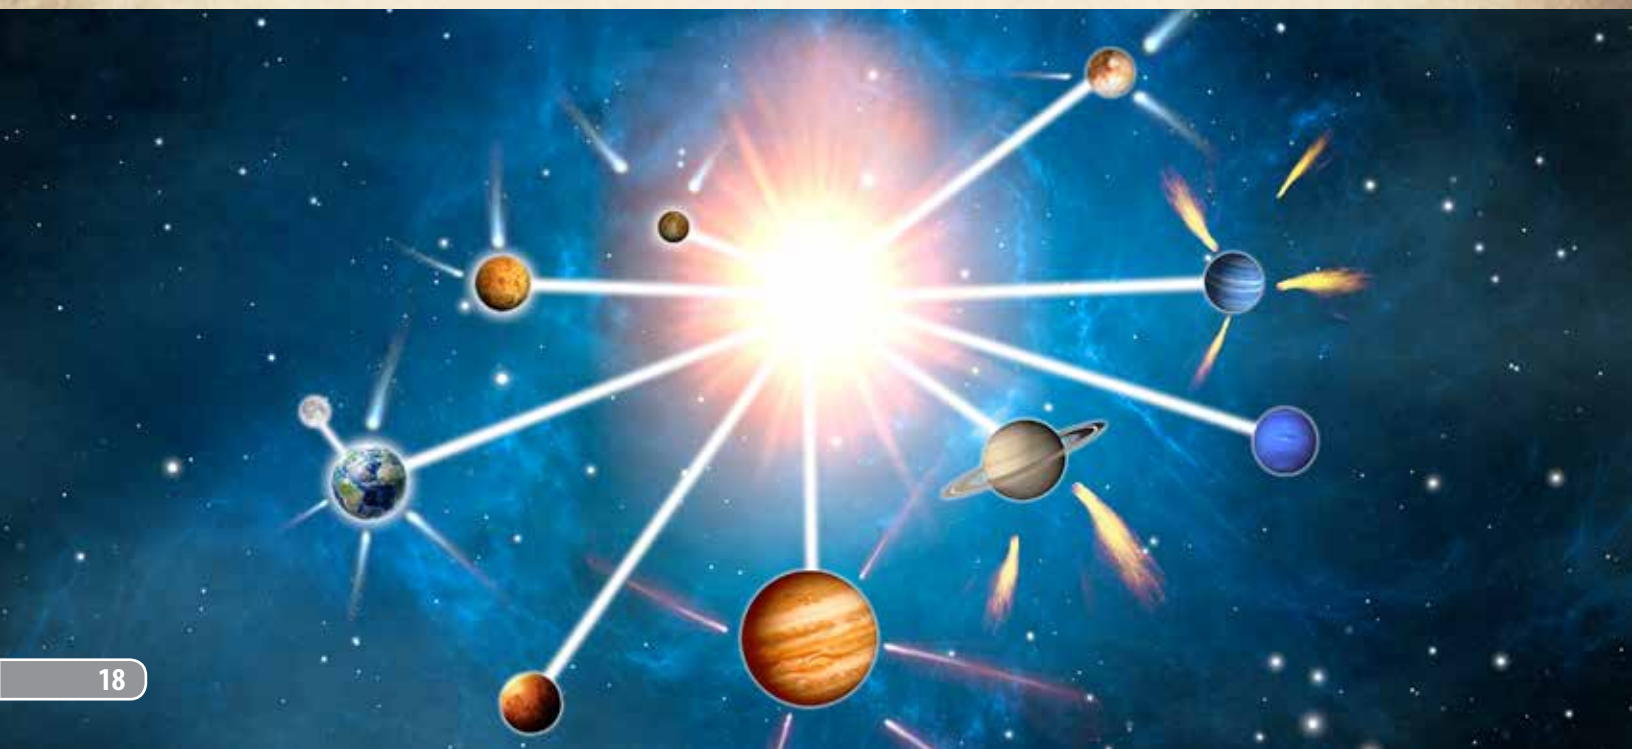

It also concentrates in these points, the balance that allows the suns and the planets maintain their position.

When the start was announce San Venona said in addition that things fall into space, wherever that was, they would fall into one or other sun, into one or other planet. Depending to which sun or planet belong that part given of space in which the object fell; establishing each sun or planet in that determined sphere, “stability or bottom.”

Ships move and transport with the magnetic force of the worlds and are very fast. The technical operation of such ships and all that exist on the planets of the cosmos is made: **based on continuous motion.**

Through the infinite cosmic space numerous ships travel as numerous as the sands of the sea, interstellar ships are gigantic and carry in their belly small ships.

V.M. Samael

# Hyperspace or Fourth Vertical

To start this chapter we want to put emphasis on the following postulate: *“The physical will continue while the human mind, remains bottled in the three-dimensional dogma of Euclid.”*

Unquestionably the contemporary physic, is certainly: regressive, retardant and reactionary. It is necessary with maximum urgency, cannot be put out, plot *“The Fourth Vertical”*, however this is not possible while the materialistic skepticism exists.

Any advance humanity from future remote, will be able to manufacture cosmic ships with the capacity to cross: “instantly the barrier of the light velocity.”

Such ships royally based on a new physical form of dimensional type, traveling, between the fourth vertical at superior speed of light. Then the conquest of the infinite space will be a concrete fact, clear and definitive. Certainly those ships powered by solar energy, shall be govern by authentic men in the fullest sense of the word.

Is evident and all the world know that with supersonic aircraft we have already crossed the barrier of the speed of sound, however, the haughty and proud earthling continue stopped before the barrier of the speed of light.

Is not more in these chapter issue the following statement: *“After the barrier of the light velocity; (300,000 kilometers per second) is the fourth dimension.”*

Integrating efforts in supreme mental focus, with meditation we can get, our body of flesh and bone inside the fourth dimension.

These ships with their high technology can violate the barrier of speed of light instantly in full flight, before our own eyes, like many people of our world have seen penetrate the invisible world.

And travel various times at the speed of light to the tetra-dimensional space being solve the problem of three-dimensional distance.

Undoubtedly is the fourth coordinate, the same hyperspace of the hyper-geometry, whereby it is possible to perform supernatural acts as are: disappearance or appearance of a body in the three-dimensional space of Euclid, or the exit of any object from the interior of a box hermetically closed.

Ostensibly it has been verified the crude realism if this phenomenon, sequentially they come to prove the existence of the fourth dimension.

We dwell in the third dimension, the perceptions of our sense are three-dimensional, we only grasp the high, the width and the image of thickness of the things; but we never capture the interior volume, nor the hyper volume of the objects and animated beings. We then live in the world of Euclid of three-dimensions.

# Introduction to My Experiences with Extraterrestrial Ships

**A**s a child I would watch the starry nights reaching ecstasy. A strange uneasiness awoke in me at such greatness of the embracing and omnipotent cosmic space.

While lying down as an infant with arms and legs spread making a star of five points, for hours scanning the sky, in state of reception, in alert novelty thinking of nothing; I learn to quite the mind.

For years I saw strange lights like stars some very big and others small full of light, that in a zigzag and in a strange form would ride the starry firmament.

Of all the newspaper and daily that would get to my hands since the age of 7, I would cut of the parts related with the scientific discoveries of any type and the reports of UFOs; then I would paste them in notebooks and like that is how I initiate in this fabulous theme, about the flying discs.

Then I learned, the insignificant that was in relation to the Universe that surround me, the greatness of Earth and its beauty. Our Ors Solar System with twelve worlds, our Sun, being part of 7 suns, that spins around a central sun that is called Alcyone. Being part of these group of suns which we call “The Pleiades” that are stars of Taurus constellation.

Millions of constellations gravitating around “Syrian” the central Sun of our galaxy called “Milky Way”. One nebula more between hundreds, millions, billion and trillions of organize universe like galaxies; each one with its millions of suns and billions of planets, with their laws and celestial mechanical.

Nebulous, big and small, which molecules within the manifested space, without beginning nor end. Exist in every one of the seven fundamental dimensions of the universe.

Infinity of galaxies, multidimensional, flashing beyond the orbit time and the space that we know.

With celestial uneasiness, eagle eyes I have scrutinized, carefully the body of our cosmic mother or cosmic father and they have unveil their mystery to me.

*“God has no favorite,  
he is his favorite from his children.”*

I give testimony that during my existence I have been visit wherever I am living by different units or UFOs, of different sizes, sphere shaped, disk-shaped, cylinder or cigar shaped.

Giant nurse units of various shapes and sizes, for this I share this humble experiences with the sole purpose, that those with uneasiness about the cosmic ships and its crews can learn the undeniable truth that our brothers from other worlds that manned the cosmic ships are human like us with angel souls.

*Fernando Moya*

# Physical Visual Contact with Two Ships

**F**ive springs I had in these existence here on Earth, one fresh morning I was sent by my grandmother, to the store, located 120 meters from the house, with the capacity of amazement of childhood watching, watching everything my way and like that I got to the store in the corner of the block and I arrange to cross the street.

It was 7 in the morning, there were a few people, I felt a strange magnetic force unknown over my body, I raised my eyes to space and I saw two ships on top of my physical body about 50 meters high, scrolling slowly, each one separate at little distance, both at the same height.

With smooth surface below and of flattened plate above, revealing a dome of the same metal aluminum color while leaving. I took a few steps to the center of the street screaming to those in the store: *"look at those two ships, above us"*, and those who were outside

the store, they look out when they heard me screaming with emotion, everyone saw how the ships were scrolling horizontally, letting out a circle that was in the center of the ship, a stream of light.

I went in the store, I bought what I was asked for, I heard someone said: their airplanes. It was 1954. For my insides I sensed that they were ships from another world, I got home reflecting. A tremendous concern in my being arose seeing those two ships, different from any airplane of that time.

I would ask myself, if those were ships, someone must drive them; ¿How must their God be? And many other questions that would get to my mind as a child. This event motivated me to see the stars at night and during the day and years to look at the space in search for answers to my questions.

*Fernando moya*

# The Ship that Changed my Destiny

**A**ugust of 1968. I felt a radical change of my life, I went to the market and I bought “Black tea in bags” and I travel to the field to meet with a couple of friends from youth with the purpose to say goodbye to them forever.

Something strange was going on in my interior, I got to the field house at noon.

I walked to the luxurious residence occupied by the companions of the road of life. They were 7, enjoying the mild climate, almost cold among the lonely mountains.

That evening we talked about many themes and I made them tea, communicating with the attention I was saying goodbye to them forever, they laughed, they mocked me and one said: “another of your follies.” At the end, they just ignored me; into the night we set out to rest.

I got up at dawn to watch the sunrise, it was one of my favorite shows. With that intention, but full of a mysterious energy I took “the lotus position”, I had never done it, but my body obeyed with an unknown elasticity.

My inner state was supra-sensible, reaching maximum degree. I began to “see and feel” how charges of energy in form of light of different beautiful tones and colors, penetrated in my physical body into my interior.

Two rays of light penetrate my knees and other two of multicolor light went into my lungs.

Looking at their interior two white spheres of light, the heart like a sun, the belly button like the light of a great diamond, for each yolk of my ten fingers I saw how loads of light rays penetrated me, the same in my calves and other parts of my body.

In this state of euphoria, I realized that I had in my anatomy several vortices of strength, energy storage in my nervous system, I saw how they were located and how they pulsed.

When my nerve centers were charged to the maximum, after three hours of sitting down in that state of unitotal reception receiving that mysterious energy, I felt like “a magnet of gigantic life”. I got up in ecstasy raising my hands to space saying: “My God.”

In that instance a “cosmic ship low over my head” about 10 meters, emanating from its base a powerful gush of pure blue light and it covered me completely, coming through my outer crown its of light that flooded me inside.

The gush of light, it not only wrapped up my body but inside my soul as well, loading it of a supreme energy, an indescribable force.

The beam of light stretch to over two meters around my physical body and the show was beautiful.

At that moment I was another “Being”, “my true being.” Taking absolute control of my soul with a force, I felt a will of steel with a dominating energy full of love and gentleness. Saturated by an eternal moment, the ship disappeared and I was alone again.

*Fernando Moya*

# Three Venusian Ships Visit Us

**M**otivated by my last experiences; I stood a while longer in the deep mountains; in the humble dwelling of the wise man, a man with his own light, that would strength my soul with his presence and his big knowledge.

I had the privilege to be received in his house where they allowed me to stay.

On a cement floor were coffee is dried, in front and a few meters of his house, one of many nights talking delightfully about the divine wisdom and the worlds inhabited with 18 investigators of the phenomenon UFO.

There all reunited the wise man tells us: time before in these same place a Venusian ship came, here at a meter height, in which a small ladder came down so I could go up; I went to call my wife so I could take her, to my surprise when I came back with her half a minute after, it wasn't there, it had departed; but in another occasion I was invited to aboard a chip and was transported to the planet Venus.

He gave us a marvelous description of that world, its culture, its cities and people. Years later I read a book of Salvador Villanueva "I Was in Venus" and to my surprise it result the same that our host comment us when he went to Venus.

That nigh we all got animated with our friends talk that hours past so quickly, soon after three small ships unusually appear of two meters of circumference with glass cabin in the superior part, and a meter and a half of height.

The joy of those present was in chorus, they approached slowly in front of us at 20 meters of distance and about 15 meters of height, at a few meters of the treetop.

They circled slowly around the house and us to then stay still, suspended in the air; the sound was almost inaudible, but it was heard.

By the base or the bottom part of each one of the three little ships, a gush of light came out from a perfect circle.

The gush of light was color "gold" similar to the golden stars that come out of an emery when iron is placed to be polished or a knife to be sharpen.

The golden light that came out of their solar receivers and turbines, it diluted in the dark of the night in a delightful way, the show was formidable.

For a moment they observed us and at 20 kilometers of velocity as they came, they went scolling without increasing the speed.

To descend more or less than a mile away, in the thick of the night that was waning, i.e. there was no moon. A kilometer in a straight line inside the mountains and without knowing the way, was a concern to go to the place.

When the ships went down we saw how the place lit up, like flaming mountain with golden light at the contact with the ground.

With emotion I invited some who were present to go to the place, they all refused, nobody wanted to accompany me due to thickness of the jungle, apologizing in one way or another.

Hurriedly I went out on a way to then take a detour and penetrate to the thickness of the jungle, but a few moments later I stopped and coldly analyzed the situation; I will get lost in the thickness. There were many hills covered with thick foliage and big trees and plus I didn't know the

place. My soul was where the ships were, but my body couldn't get to the place and distressed I went back.

Obviously reflecting, these small ships never seen before impressed us a lot. The wise man, the indian of the mountains said: those ships are Venusians. They belong to a base located in some place of the world or they come from a bigger ship "nurse".

A few minutes later we all said good bye and each went to his bed rest, thinking I had lost a great opportunity of physically contact the crews of those ships and like that in these reflections I lay down to rest the body.

*Fernando Moya*

# The Three Venusian Ships Return

## My First Contact with a Man of the Planet Venus and My First Trip in a Ship of Another Planet

**I**n 1973 I had 24 years. Now in the bed rest exalted remembering the event of a few moments and unable to sleep, by the shock that my conscience had received, I was there in bed unable to sleep the body.

Like that allot of time passed by, till I saw through the window how everything was illuminated, like if it was daylight with an intense white light. And a powerful magnetic force pulled me with tremendous momentum, I got up and went out the house.

Taking a few steps and reaching the portal, I see with great surprise that the same three ships seen two hours ago, had return. And majestically they descend making contact with the surface.

Their super-powerful reflectors illuminate the surrounding environment. Before descending one headed to a clear where there were no trees, another passes in front of me and made contact and the other one located next to the one that descend next to me.

At about 20 meters of distance each one. Some mates that said they were serious about this subject, went out running like crazy full of fear and cowardice. ;What ignorance! I said to myself and I remain puzzled by the two shows; the one of the ships and the disappointing of my friends of studies.

Run away from a great opportunity was absurd to me. Only two of all the rest didn't run and this servant. The rest disappeared in the darkness of the foliage. Sincerely I direct my vision to the small ship, it looked very solid at about two meters of equatorial circumference. Completely flat on its base, the top part a dome like glass completely round.

The UFO was three fourths parts of glass, by a fourth part placed around the ship forming a metallic band in its base.

I observed the reflector light bulbs of light and said to myself: ;How powerful!, at the moment a small ladder detached down that did not touched the ground. This ladder on the top part was made of glass or metal or very fine plastic that looked like glass. The bottom part would come out of the metallic band.

I saw a little man kind of like a child, I peeked with great serenity; getting my head in through the small door that had about a meter of height, smiling at me with white teeth and with a face full of happiness the pilot of this ship, in perfect Spanish with a very clear tone and dry at the same time he told me "come in".

I told him good night and extended my right hand greeting him earthly style, like one of us he corresponded.

He was sitting at a small dashboard, at the side of his seat there was one exactly the same with another board in front, but with the size of the conductors, that I calculate instantly like a meter height.

I stepped on the small ladder and told him: ;I don't fit there! Looking at the small we would say seat, to which he replied: don't worry come in that you do fit. I introduce inside of the small ship, behind the conductor and sat down in the small seat, which was adapted like a foam to my back and buttocks felling nice.

He pressed a mechanism and the ladder went up and the ship stays hermetically closed, I saw how my friends went up in each of the other ships.

Ready to go the three ships detached at the same time. The man had yellow platinum hair, very unlike any hair of our breeds.

His head proportional to his body with a very beautiful face, like all his physical appearance. The flesh of his face was color ivory white with pink color in his cheeks, highlighting the beauty of his face.

Fully equal to us, but smaller and that's it. Inside the ship there was enough light as if it was day. The small operating controls in front of each seat were very simple. I think a ship of these this can be driven by a child if he was taught how to do it.

The ship could be driven with any of the two controls.

The ship elevated and at a good speed it made its way south, at very little height inside the dome I could see how we moved leaving behind the mountains to go towards the Amazon jungle the three ships.

We talked very enjoyable and happily with the alien that identified himself as an inhabitant of planet Venus. He told me the ships belong to a base, that were recognized of routine trips of research here in our world.

That their ships that we call nurse or mothers are bigger transporters that refuge in their womb a great quantity of ships depending in the size of the transport ship in which they travel to their world of origin, Venus. He told me they were expelled from the inside of the big ships from a kind of slide.

My host showed life in his face and I saw happiness in his light blue eyes, we talked of different things, he talked to me about his world, of his bases in ours; I asked him about the gnostic teachings explained by the teacher Samael and he ratified that it was a universal knowledge, for all the worlds of the cosmic space; he explained

to me how the Venusians made love, the fertilization and labor without pain.

After being taken to a certain place he took me back to the original point of departure telling me that he would come back and to look for the perfection and etc.

# Why Humanities of Other Worlds Don't Make Contact with the Inhabitants of the Earth?

**I**maging an embassy of journalists, religious, physicians and biologists, presented with a message of peace and love and wellness before a cannibal tribe in the Amazon.

It's obvious that those cannibals would see them like an exquisite menu and would eat them all with great pleasure.

Likewise an embassy of authentic solar men, with angel souls that would appear any warlike world government, with the most noble intention

to exchange knowledge and to show the human reality of their world to the earthlings.

Undoubtedly, that as soon as they descend from their ship they would be captured by the army armed with rifles like criminals. *All this for fear of the unknown.*

Then without doubt they would be taken to an experimental laboratory and not to an elegant lounge of reception as it should be, immediately they would be taken to rigorous interrogation

with latest technology and torture methods that they have to make them talk.

In synthesis they would treat them like apes or bunnies of laboratories, they would withdraw blood, they would be summited surgically to an autopsy alive to supposedly know their anatomy and more cruelties to which prisoners are summited to.

Their ships would be captured with the perverse intention to fabricate them to load them with atomic missiles, chemical bombs and biological to make war to other nations and also fabricate them to invade Mars, Venus and the neighborly worlds.

Enslave their humanities and import from Earth to the other neighborly worlds all the subhuman vices, alcohol, drugs, prostitution, infra-sexuality, homicide, genocide and ecocide. True perverse features of this present civilization.

Man of other worlds know the perversity of the earthlings and in no way let themselves get capture, because they know perfectly what awaits them.

## Message of Our Alien Brothers to Humanity

*We want for all human beings:  
The aristocracy of the intelligence  
and the nobility of the spirit.*

*All craft that you see in the vital space of  
this your planet, is a message of love and  
peace.*

*All craft is manned and depending on its  
size, varies the amount of human beings  
that are in it.*

*Please brothers of the earth, when you

don't strafe at us, don't shoot missiles at us,  
do not fear, we will never hurt you.*

*Our presence has the objective to assist  
you in critic times in which you are found and  
before the catastrophic events that awaits  
for your planet.*

# The one Who Falsify with the Truth

**M**an has embarked on the conquest of space; violating the cosmic laws that govern. Space is sacred and it cannot be conquer if the principles that govern it are unknown.

The most unfortunate of all this is: the state of terrestrial humanity. These laws can't with impunity break, without receiving the disastrous consequences.

We must study *"The Laws of the Space Time"*, with all the humility at the feet of our brothers from space; we know that this is the exact path that would allow us to navigate in the true cosmic ships, throughout the infinite space.

The unfortunate thing about all this is the tremendous falsity of the world's governments, that with dark purposes they hide the reality of the cosmic ships and their crews, intentionally distorting the reality through the media.

Before the solemn verdict of the public conscience, we make a call to those who intentionally misrepresent and lie to the nations of the Earth.

What thousands of beings know, because they have seen the ships and had experiences of various types.

Perhaps they are afraid of their pride, to be the only ones, that their great pride fall on the floor of the temple in pieces.

¿Why do they want to have in ignorance our human crowds of our troubled world?

Having the governments of different countries, remains of accidental ships, bodies of dead human aliens, photographs, taken with their telescopes that scrutinize space day and night and more evidence of their own.

Obviously before the facts, we must surrender, million souls of the earth have seen the ships, others have travel to other worlds and come back; also some selective and families have been evacuated and transported to other neighbor planets.

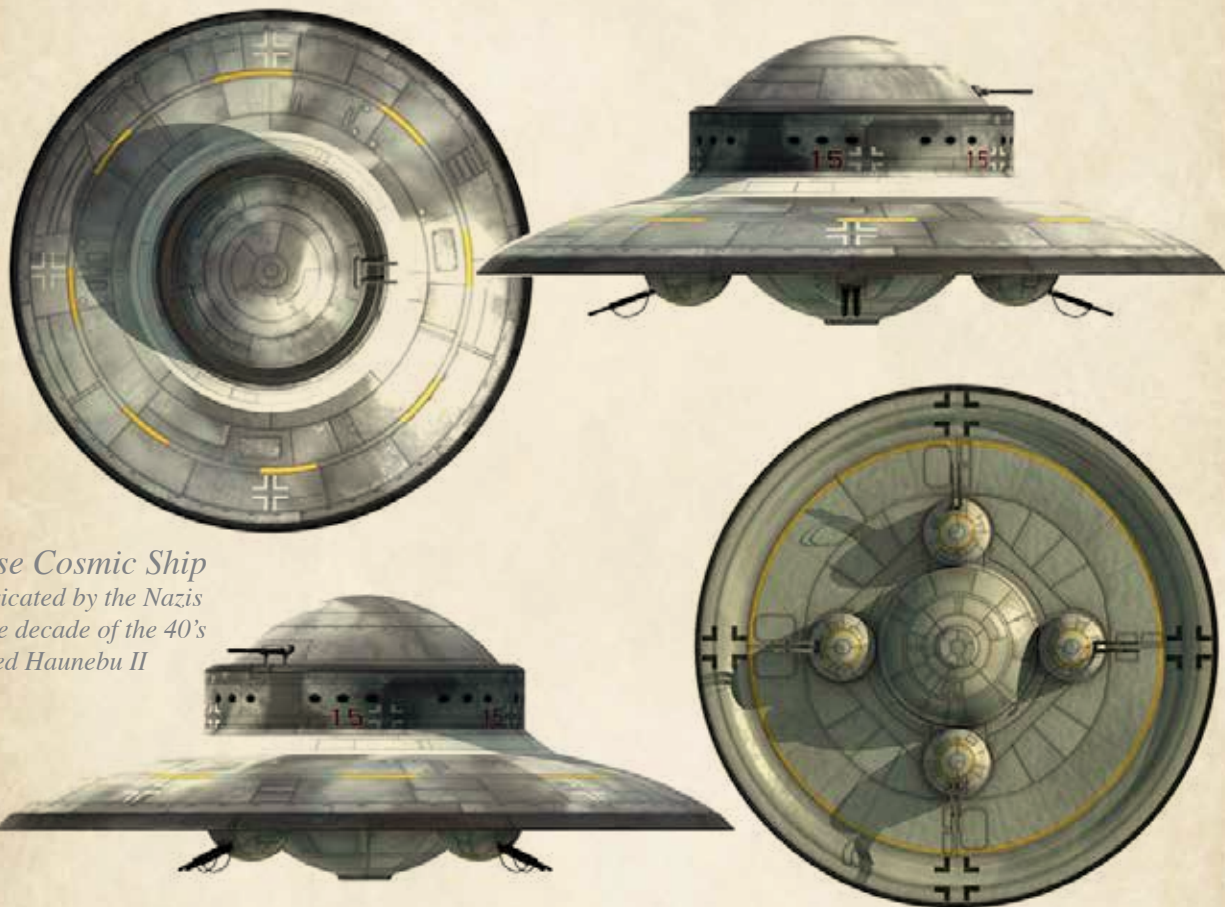

On TV programs its dispute if it's true or not about the ships, if their monstrous or humans the brothers of the cosmos, if they come to conquer us and etc. and we see ridiculous clowns, mate-

realistic unbelievers enemies of the eternal with sarcasm and perversity in their words, wanting to ridicule the truth experimented by others in their own flesh. Conferences, audiovisual, fantastic and marvelous irrefutable evidence of hundreds of people that have film them in plain flight, pro-

jected by humble men, with healthy intentions in different countries of the world, creating favorable uneasiness in the human persons.

# Mediums Auto-projections of Reptilian and Grey Monstrous Making Themselves Pass as Humans from other Worlds

**N**o more monsters exist than the ones you carry in your mind and in your perverse psyche, some uphologists and investigators of the alien life; that projected fancifully these entities of hell, with the bad intention to show the earthly human that humanity of other worlds are evil beings.

A lot of cases exist in which people talk that they have been abducted by aliens, and have been subject to different tasks in a laboratory inside of a space ship, describing beings of humanoids with animal forms that come from other planets.

Of women that assure to have been left pregnant by these before, with the purpose to improve the race or creating a hybrid race.

It's been heard of mutilations of herds and human beings that have had their organs extracted with surgical precision and their naked bodies appear abandoned in different parts of the world.

In the archaeological discoveries all the information is altered and modified, to make us believe that the humanity of the planet earth is an experiment of the aliens, confusing people like that taking them to an atheist mentality and materialistic, achieving like that a society without spiritual values and easily manipulated by the governments.

All this information that it's moved through the media it's a falsehood, now that making believe the incautious that an alien invasion is coming, that make genetic experiments with humans to achieve control over our world, etc. etc.

The government and black magicians, pose as these monstrous committing countless crimes and cruel aberrations, creating collective panic in order to that when the humans from other worlds become present they get rejected by the people of the planet earth, thinking they come to invade us and to destroy the human race.

The only true is that the aliens are human beings of flesh and bone from different worlds of our solar system and different galaxies, whose sole purpose is to help humanity and although they have visited our planet since immemorial time, with their only mission to bring us a message of peace and love.

In various times of history we have been aided by humans of other planets, our elderly brothers, even avoiding our self-destruction, but we are fools and we continue making war and killing the neighbor, and exploding the planet earth and depleting its resources.

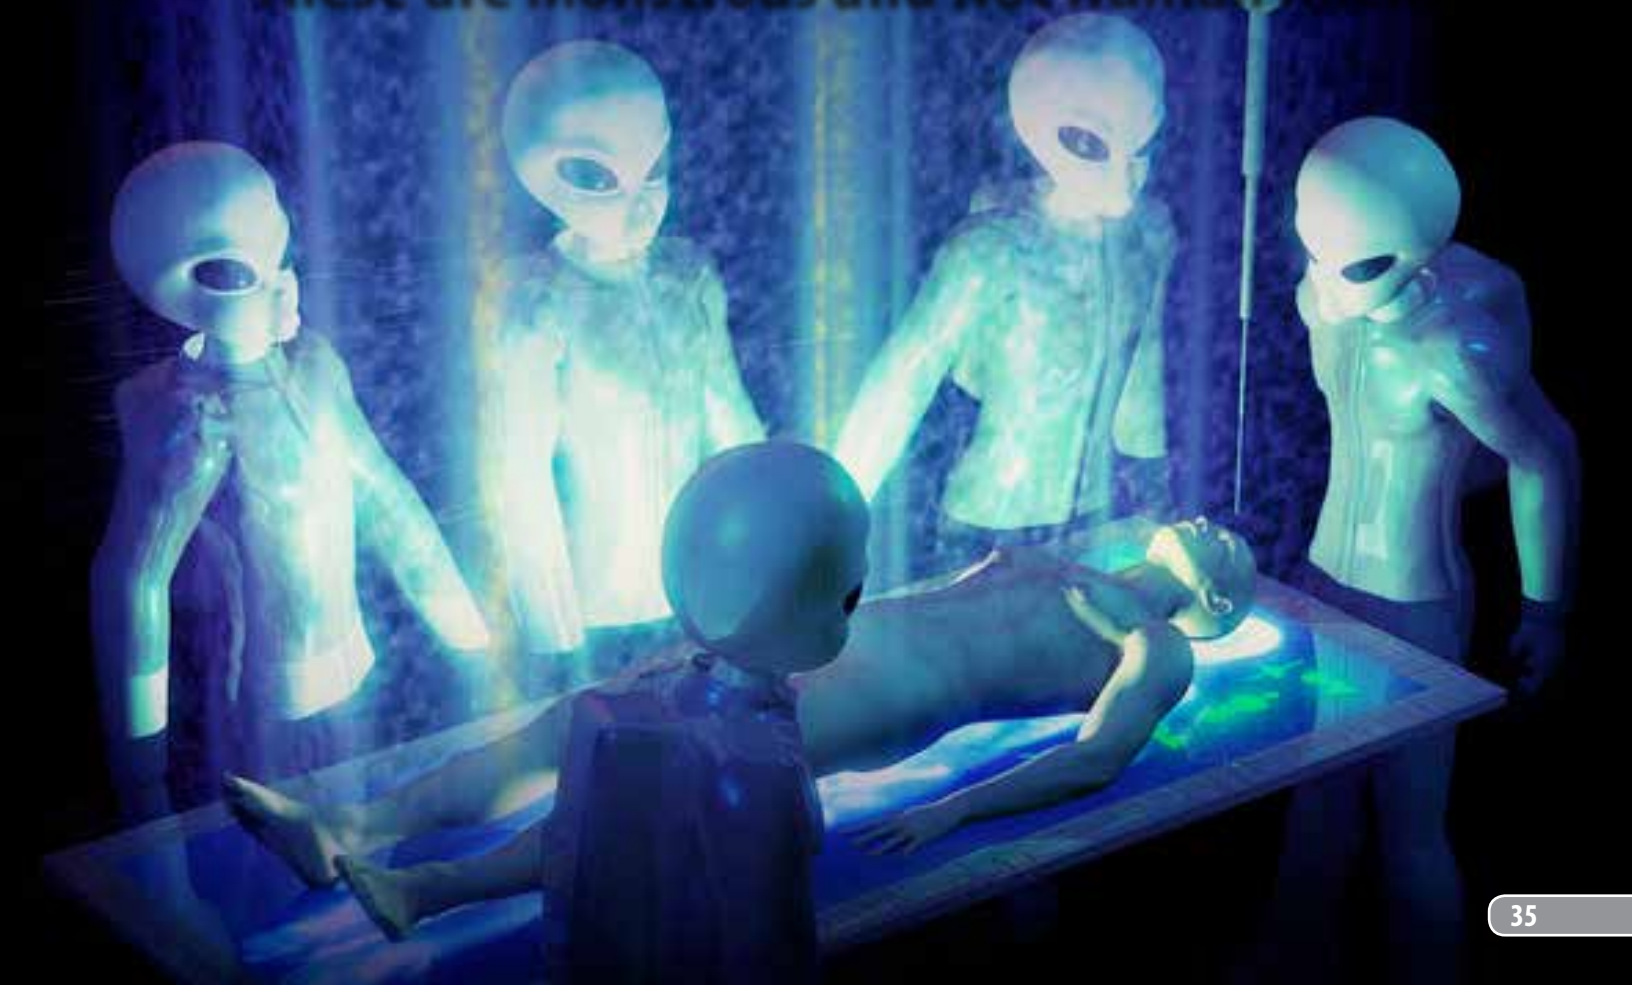

They, the humans that come from different parts of the universe, are among us, they live with us and they assist humanity constantly and we don't even notice it, for they are human being like us, but our folly don't allow us to realize and accept it.

**These are Monstrous and Not Human Aliens**

# Mediums and Spiritualists

## Evil Characters of Hell that Deceive People

**T**hey are mediums that any man or woman that are possessed unconsciously, or during summons to the demon in intentional form they search to be a vehicle of characters of dark afterlife, of the I demons of the disembodied, of legion heads or evil entities that incorporate in their bodies seizing their minds, of their brain and their language.

The most perverse and evil, deceiving the incautious impersonating Jesus Christ and beings of the light. Also passive mediums that incorporate, the I demons of people that died and that were religious, giving sermons of wisdom and love.

There are mediums ethnic groups including the ones of the tribes of Africa and the Amazon, of India and other nations of the world like Dominican Republic, Haiti and Cuba.

That made of this aberration a religion in which the possessed make miracles, cures, and give sermons of religious wisdom according to ethnicity.

There are also amounts of passive medium people that enter in trance and are possessed by evil entities that impersonate aliens and write themes about aliens and give absurd expositions that confuse the people and from this abound like the bad herb quantities of writers that are victims of the vile mediumnism.

A teacher from the light, a teacher from the white lodge, would never, take or possess a body of a person full of defects to express cosmic truth, that's why only the adepts of the black lodge, of the darkness and the afterlife and the egoic I's of the disembodied are the ones that reincorporate in passive organisms of man and woman.

That when they return of the trance they don't remember they were possessed, much less that they spoke or said, or what cures they performed, that's why they are unconscious mediums and falsify the truth.

# The Black Story of the Present Bellicose Humanity

**T**he black story of the present humanity, indicates us successive wars, invasions of helpless towns, conquest of nations, with the cross and the spade, fratricidal wars, centuries after centuries, years after years, throughout the time; to culminate with the last two World Wars and then the present cold war, with more than 30 fronts of combat to die, with the only purpose to destroy the economy of the nation less powerful throughout the war intentionally created in those countries where they put them to fight and kill their own brothers of the Earth.

The vultures of the war, the military and the leaders of the world, create this wars to sell their deadly weapons, finish the economy of those countries and then seize of them, investing supposedly for their reconstruction. This show us barbarism without limits, a humanity fratricidal, ecocide, that with no mercy it destroy itself and the great nature.

It's exactly that with their movies that they invade us from other worlds, we project our own wickedness. *"The devil sees like the Devil and*

*the Angel sees like the Angel"*. Its but our only reflection that we want to project of the divine humanities of the outside space, that in contrary they love us and they want the best for us.

¿Why do they want to show the true human beings like deform monstrous, bloodthirsty, predators with evil intelligence? ¿Isn't that exactly what we are?

In the movie *"World of Wars"* in which tenths of interplanetary ships manned by monsters, they invade and attack with their rays of death helpless cities and their people. Similar to *"Independence Day"*. What ridicule is to want to deceive the innocent ¿right?

*"The X Files"* another series of TV. Mixing intentionally homicides, deform beings, maniacs and all types of murders; with issues of alien ships.

Undoubtedly this program wants to detract the truth like all the ones mentioned before.

The war of the galaxies. Pride in its wit and technology, differentiating the powers of the light and of the darkness in men, in eternal fight, marvelous until now.

Only that it shows an insane man thirsty of power, conquering with its barbarism worlds and vaporizing them with canyons of mortal rays, taking the badness of the earth to the sacred space. Any insane, could never violate the laws of the infinite, like if with its own hand he can destroy full planets and its human species. The segments of this movie are obviously of demented sick.

The antique series of *"Blue Book Project"*, in which a North American agency in charge of investigating the phenomenon "UFO", arrives with

its representatives to the place of the contacts that have seen a ship and after their proverbial investigations and their fake science, they misrepresent the experiences of those people that have seen and that believe this reality that for them is true.

There are also great movies with messages of love and peace in favor of the aliens.

*Fernando Moya*

# Fake UFO's

## Manned by Mercenaries

**W**e yearn, to show that different governments of the world, they have tried to imitate the cosmic ships, building some similar disks, but of course with jet turbines, that use ethyl fuel, with the purpose to use them for air transportation, but they didn't achieve.

A lot of flights were made with ships of this type of great proportion and with small ships, also with warlike endings, letting themselves be seen in lots of places of the world.

Posing as alien ships; dressing similar to them and descending in some places letting people see them with monster suits, chopping animals, cheeps and herd, raping woman, etc. with the purpose to un-virtual the true about interplanetary humanities.

Those sketches of ships never resemble in technology and potential the ships of the super man. ¿what necessity do they have to chop a horse in pieces, a cow and take their members and viscera to their ships, are they perhaps crazy like the ones who make this barbarities to detract the true?

We know that they possess formidable airplanes that trespass the velocity of sound, but that's it, they are stuck there and don't move from there. Also with which they want to pose as alien ships.

Sadly the truth not even with witness. And the lie has leaders and followers. We are going to give the clues of communications with people of other worlds. so the ones interested practice them and can make contact.

*Fernando Moya*

# The Black Magicians

## Pose as Aliens Deceiving the Incautious

How do you see it dear reader? And what do we say about the spiritualists that say they are telepathic, mediums that share their bodies to entities of afterlife and of hell and impersonate “Jesus Christ” and other important men, deceiving the incautious with the famous topic of the men in black, supposedly aliens of the black lodge, dress from head to feet of black and of somber faces.

Can black magicians of the black lodge be aliens? Of course not, the telepathic messages that receive! The spiritualist mediums, are the dark waves of the followers of the evil to confuse incautious, they pose as beings from other worlds, projecting to the mind subjective of these persons, ships of black color from where the men in black descend.

I want you to know that an authentic clairvoyant, is the one that sees far beyond a telescope, the infinitely big and from a microscope the infinitely small, and that only a perfect men can possess such power without a single atom of wickedness in his interior, we don't deny that there are many good beings with certain level of development in this faculty.

There also exists the ones that believe that the spiritualist healers, mediums dress in white, that concur to the makings of those sick to cure them or to the spiritual temples to cure the sick, are aliens, but it's false.

We must know that inside the perfume of the prayer, the crime is also found. There are perverts that hypothesize of saints and that the wolves of evil dress with sheep leather to deceive and divert the soul to the black path. The followers of evil, of hell, also possess extraordinary powers, they dress with white, they cure and make miracles, but they are never aliens.

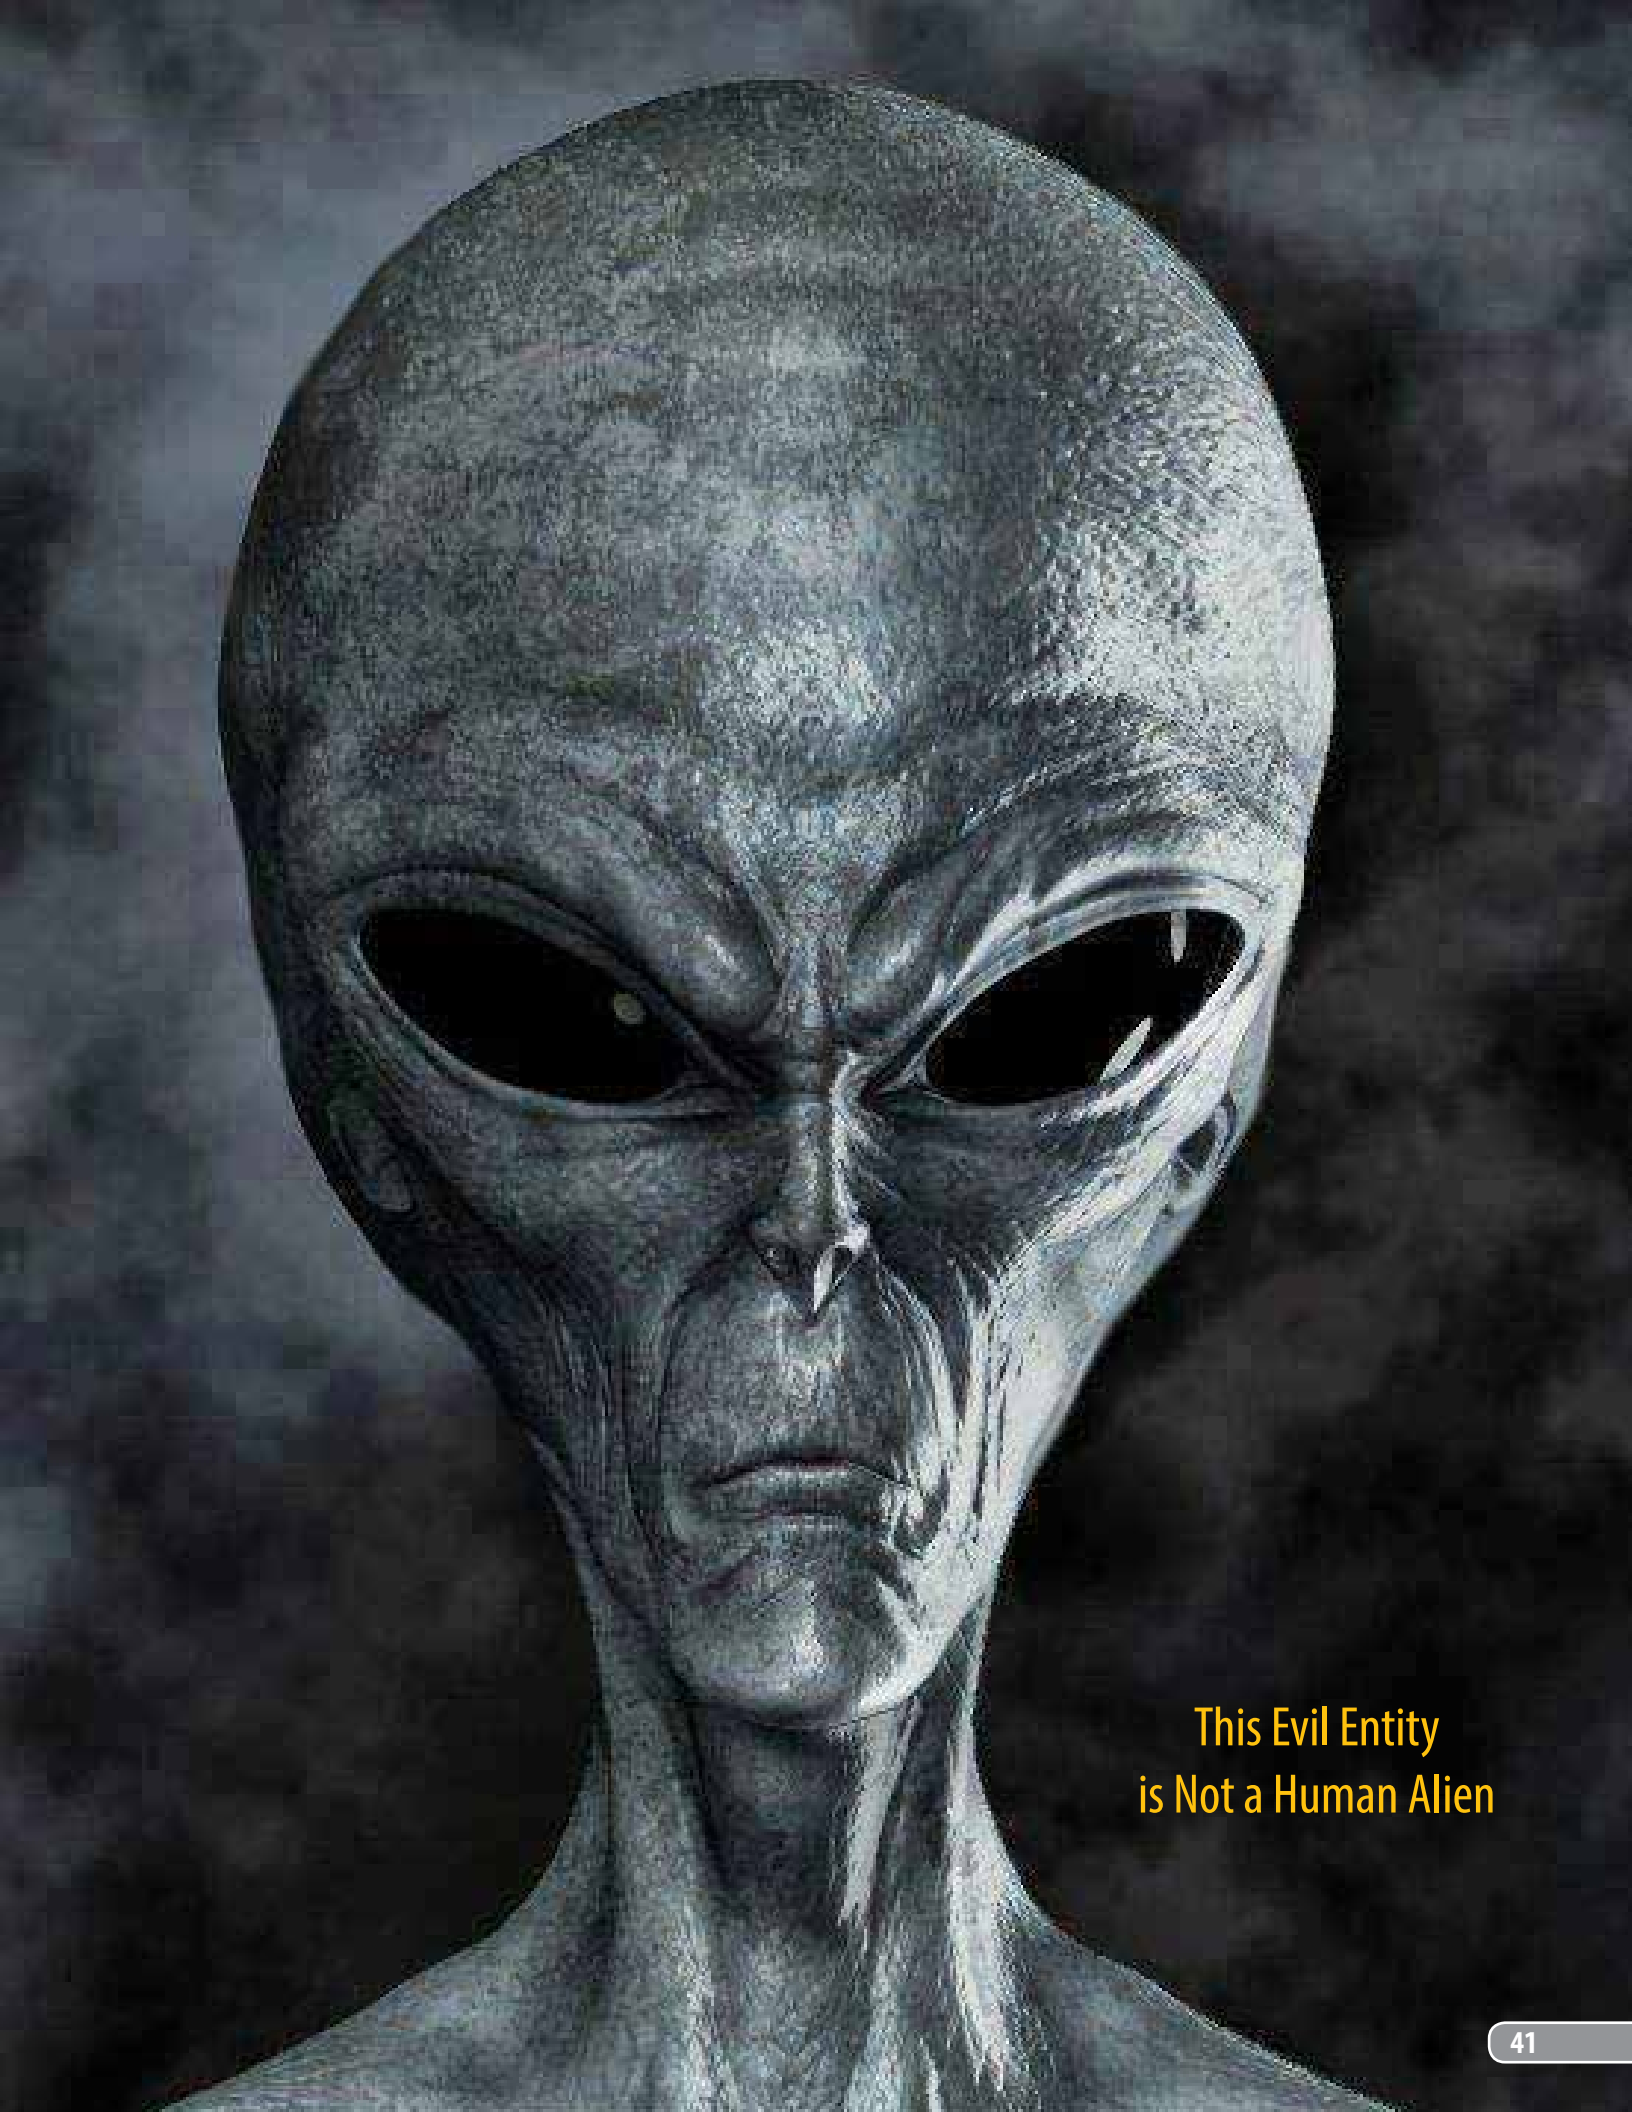

We don't deny and its true and with no doubt that the followers of the light, the teachers of the white lodge of this world and of all the worlds, generally dress with coats of diamonds, marvelous solar vestments, with bodies of pure gold and that also by the Universal charity they cure a lot of sick people, the teachers of the Universal medicine, giving testimony of have been cured.

Is then important, to know how to differentiate between the light and the darkness, to avoid falling in errors, that may cost us very expensive.

This Evil Entity  
is Not a Human Alien

# A Speculative Aberration of a Pseudo-Seer

Recently in a Mexican TV channel, that I personally saw and heard.

A spiritual pseudo-seer woman, left with an open mouth the auditorium and its programmer, alluding that she is a contracted, that have the power to see the aliens, that they are small deform monsters, that they feed of our vital energy and that live attached like vampires to us, sucking our energy without us noticing.

She had the guts to tell a young lady that she had an alien attached to her stomach.

Obviously that is a speculative aberration of this lady. If we examine the perceptions of this woman we find: “a medium spiritualist pseudo-seer”. Possessed by some entities of afterlife or by monstrous I’s of some disembodied of the underworld, incorporated or possessed of her body and owners of all her feelings.

The incredible thing about this pseudo-seer woman with her distorted psychic see monstrous attached larvae to her vital body and of those people communes and Corrientes, that like the case in which she points out the lady of the auditorium telling her that she has a monster alien stuck to her stomach.

This medium, obviously that she has an uneasiness of the alien type and that’s why she emits her pseudo-seer monstrous perceptions, auto projecting in her and the rest, the monstrous I’s or evil entities that personify their human defects.

The expert Russians in electronic glasses of optical call: “electromagnetic condensation” the vital body of the people. Where the woman see those entities of afterlife attached to her body and in the rest.

# Ghoulish Uphologist Writers

It's highlighted to the public light a variety of fortune tellers, pseudo-seers and ghoulish mediums, with uneasiness about UFO's.

These people without any scientific culture have been dedicated to write articles and books, where they intentionally project the real human beings of other worlds, like the monsters that they carry within.

Sowing malevolently the fear in people when they inculcate that the interstellar solar humanities of flesh and bone like us, but with angel souls are evil beings, perverts, bloodthirsty, reptilians, and other auto projections of the follies that carry these ghoulish uphologists.

It's necessary that the earthly humanity become aware that our brothers of the space with physical bodies analogues to ours, are beings of the light gifted of a soul full of love, altruism, mercy and infinite wisdom.

To the materialistic aseptic, enemies of the eternal living God, to those who make fun with irony and disdain the ones who mock of these realities and lastly the ones who hide the truth

intentionally, I remind you the words of Victor Hugo:

*"The one who laughs of what they don't know, the one who denies what they don't know, the one who talks about what they don't know, it's half way of being an idiot."*

We don't pretend in the magazine Pleiades to make you believe in the cosmic ships, because that true by the same humanities of the exterior space its demonstrated, "before the solemn verdict of the public conscience".

*"The harsh reality of the facts. It's that the true not even with witness. And the lie has leaders and followers".*

We invite our readers to understand, that there are big intellectuals that think they know but they don't even know that they don't know. And also that they ignore that they ignore, the reality about neighboring humanities that live in the worlds of our solar system. And of all this Milky Way galaxy and the infinite galaxies that exist in the embracing cosmic space.

Fernando Moya

## Inspired Uphologist

Auto-projecting his own monstrosities, fake ideas and possessed mediumly by a demon, distorting the humanities of other worlds.

Wrongly supported in concepts, opinions and intellectual beliefs, without any knowledge of the facts.

Should not talk about what is not known.

# It's False that the UFO's are Secret Weapons of the Powers of the World

**T**he report given by Mr. Lapides, stating that the flying saucers are a secret weapon of the United States, this is not so, those are mere assumptions or news to flatter certain readers.

If the flying saucers were secret weapons, ¿What were they doing flying over cities?, over the fields and over the scientific centers and the nuclear weapons, dodging meeting with planes, causing unexpected movements between them, flying serenely and last at the sight of thousands of spectators.

Whether the pigheaded of the XXI century like it or not they will have to convince themselves that the flying saucers are airplanes of other planets, piloted by human beings million times wiser than us.

In massive form throughout the fantasy movies they show ships loaded with laser rays and other weapons of massive destruction, with which subhuman beings with reptile bodies, of monsters, of robots, viciously invade our afflicted world to supposedly locate and install its bellicose culture, genocide and ecocide.

It is undeniable that these movies are creations of the Machiavellian mind and subhuman murderer, that project their own wickedness which performs against neighboring nations in conventional wars.

The purpose, is that with this intentional misrepresentation intended to cause sowing collective fear in the mind of terrestrial humanity, that the people of other worlds have a superior bellicose technology and that they come to murder us, to enslave us and to destroy our planet.

The current earthly physical three-dimensional science of spatial navigation, is not suitable for the conquest of space, is regressive, retardant, they need to create a physical tetra-dimensional for the conquest of the hyperspace, to be able to travel at the velocity of light and several times this.

So the misconception idea that the UFO's are weapons of war of massive destruction of the supposedly alien monsters, it's an auto-projection, of the bellicose monsters of the earthly science.

The space is sacred, the conquest of space and the interrelation with love, peace and respect with the humanities of the neighboring worlds and of this galaxy and of others is only possible for authentic solar man and woman, that don't carry in their psychic, the pervert defects that we the earthlings carry.

*Fernando Moya*

# To Have Access to the Hyperspace

## Cosmic Science, We Must Have Opened the Inner Mind

**W**e must understand that three minds in the human being. The first is the sensual mind, there the yeast of the materialistic Sadducees is deposited.

This type of mind elaborates its contained concepts throughout the sensorial external perceptions, by this, nothing can know about what's real, about the true, about that that's beyond the simple external perceptions.

The second mind is the intermediate mind, is where the beliefs of all species are, obviously, to believe is not to know. We have entered in the age of to Know, in the Age of Aquarius; the beliefs are beliefs, but do not imply wisdom, in the second mind the yeast of the Pharisees is deposited.

Jesus the Christ prevents us about the yeast of the Materialistic Sadducees and the Believers Pharisees.

It is necessary a third mind, if we really truthfully want to penetrate in the amphitheater of the pure science, to get in contact with the interplanetary humanities.

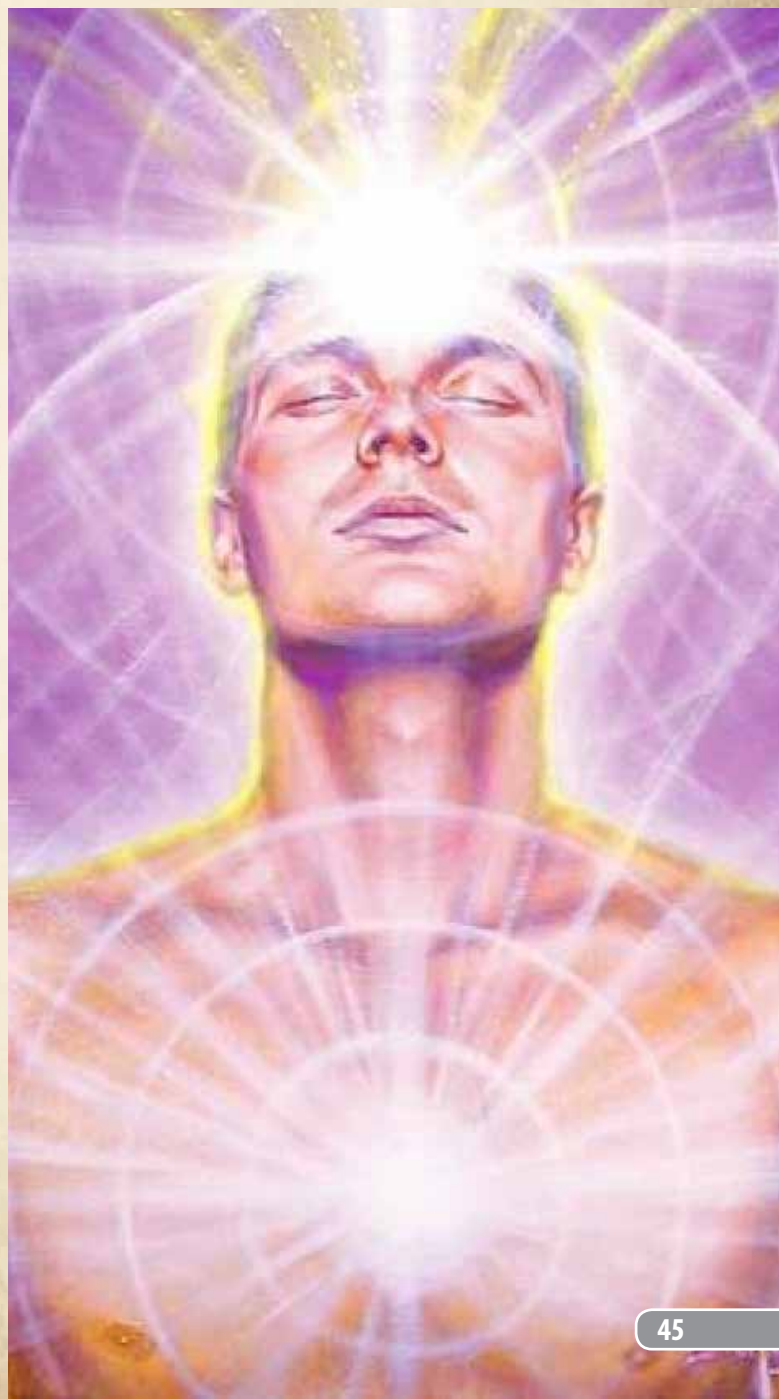

She exists, but is closed, we must open it, is the inner mind, this mind opens when one finishes with the psychological defects, when the anger is eliminated, the greed, the scary lust, the envy, the pride, the sloth, the gluttony, the vanity, etc.

In reality honestly, those who eliminate the psychological defects, would awake the conscience. The Waking of the Conscience opens the inner mind and when this opens, comes out the true Faith, that is not the Faith of the chickadee, but the conscious Faith of the one who Knows.

It's necessary understand that when the pilots of the flying spheres, establish their dwelling on Earth, they must illuminate us and then there would be splendor and Wisdom.

They are really wise and saints at the same time, they are small in height and their faces are pink like the dawn, their mission would be to illuminate the future humanity of Aquarius.

# Invitation to the Reflection to the Seekers of the Truth about UFO's and the Alien Human Life

The gift more sublime that our creator grants the human soul is:

*“ The Free Will ”*

The free will of the conscience exist, the essence or the human soul; the free will of each one of the perverse psychologist entities that express inhumanly in us also exist.

And it's true that we have the capacity to accept or reject any information according to our level of being, to believe or not believe this or that theory or other thesis, accepting them like fake or like truth.

*The truth is the known from instant to instant.*

In the present with the creepy materialistic skepticism:

*“ The truth not even with witness ”  
“ And the lie has leaders and followers ”*

The one who doesn't find the truth inside of himself, will never find the truth outside of himself. To the skepticism and materialistic scientist, to the fanatic dogmatic and those who falsify with the truth about the humans of other worlds we remind you the words of Victor Hugo:

*“The one who believe, in what they don't know,  
The one who talks about what they don't know,
